SUMMARY

Full stack developer and open-source enthusiast with excellent communication skills with clients. Working remotely and collaboratively because of my pair programming skills harness working on projects with other global programmers.

SKILLS

Front-End: JavaScript, React, Redux, HTML5, CSS3
Tools & Methods: Git, GitHub, Netlify, Mobile/Responsive Development, TDD, Chrome Dev Tools
Professional: Remote Pair-Programming, Teamwork, Mentoring

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Development Student & Mentor   September 2022 – Present

Mastered intermediate and advanced topics in front-end development (including React, Redux, Git, and DS&A challenges) while building multiple front-end projects both independently and via pair programming.

React/Redux E-commerce App — An app that allows customers to browse and purchase items from an online store. Built following the concept of SPA.
- Built with: (React, Redux, Tailwind CSS, and Vite)

TVshows-App — A movie app where users can see the latest movies, like, and leave a comment as well.
- Built with: (JavaScript, Webpack, HTML5, CSS3)

Todo-App — An app that allows people to add and modify to-do lists to help organize their day.
- Built with: (JavaScript, Webpack, HTML5, CSS3)

Budget App - This is an app that allows users to track their budget by keeping track of their transactions based on different catagories specified by the user.
- Built with: (Ruby on Rails and Postgresql for database.)

MICROVERSE   Remote
Mentor (Volunteer)   October 2022 – Present
- Mentoring junior web developers, and providing technical support through code reviews.
- Proposing improvements to code organization to improve code quality and overall performance.

UI/UX Design   June 2022 – August 2022
- Able to use Figma to design User interfaces for web and mobile Apps
- Communicated with multiple stakeholders to create a solution.
- Designed a UI and tested its accessibility and use with multiple students that I teach coding as a passion.

EDUCATION

MICROVERSE   September 2022 – present
Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
